

Company Overview

Welcome to CLOX — Australia’s smartest way to ship freight. We are transforming logistics by bringing simplicity, transparency, and total visibility to the modern supply chain. By replacing high-overhead manual middleware with a sovereign, high-efficiency digital ecosystem, CLOX connects corporate senders directly with vetted heavy vehicle operators while securing transactions via upfront escrow protection.

"Smart freight forwarding made simple, transparent, and efficient. No more complicated forms or endless phone calls to chase down quotes—just the essentials you need to move your goods quickly, affordably, and securely."

The Next Generation of Logistics

CLOX represents the next generation of autonomous 4PL logistics. By modernizing Australian logistics through a decentralized, automated 4PL digital ecosystem, the platform bridges the gap between shippers looking for competitive pricing and carriers looking to optimize asset utilization. Our technology removes traditional frictional costs, returning control, speed, and visibility to the businesses that drive our economy.

How We Help You Ship Smarter

 Instant Comparisons View live choices from a nationwide network of vetted freight providers. Compare delivery times, reliability ratings, and competitive prices instantly through a unified, intuitive dashboard.	 Streamlined Booking Enter your shipment details and secure your freight booking in just a few clicks. Say goodbye to excessive paperwork and enjoy a modern, completely digitized workflow.
 Real-Time Tracking Maintain comprehensive supply chain visibility. Stay informed with continuous live updates on your cargo from initial dispatch to final delivery, anywhere across Australia.	 Escrow Protection Build trust seamlessly. Our sovereign digital ecosystem safeguards transactions using upfront escrow protection, guaranteeing payments to carriers upon successful delivery while securing shipper capital.

The Simple Four-Step Process

1

Enter Details

Input your specific cargo requirements and delivery destinations quickly.

2

Compare

Instantly evaluate pricing and reliability ratings from vetted carriers.

3

Book

Secure your shipment selection with complete confidence in a few clicks.

4

Track

Monitor your freight live in real time from dispatch to final arrival.

Built for the Entire Ecosystem

For Shippers

Whether you are managing enterprise supply chains or growing a commercial business, CLOX provides smoother logistics, transparent pricing, and reliable provider comparisons to optimize your bottom line.

For Carriers

For transport operators and heavy vehicle fleets, CLOX bridges the gap to fill your trucks, expand your network, and ensure fast, guaranteed payments through secure upfront escrow.

Web & App Platform Coming Soon

Be the first to experience the future of faster, autonomous freight forwarding in Australia.
